

**Friends of Point Pelee provide guided birding hikes throughout the Festival of Birds at Point Pelee National Park of Canada. Proceeds from hikes support the Friends of Point Pelee and Point Pelee National Park. This submitted report is a service of the FoPP Hike Leaders.**

**Point Pelee National Park Migration Update for May 10, 2010:**

A clear day with but a light breeze greeted birders in the Park this morning. Winds were from the north shifting to the north-east. Off the Tip, the three species of SCOTER were observed in the lake. At least two WHITE-EYED VIREOS were present on the Tip, along with a PINE WARBLER. A RUDDY TURNSTONE was at the Tip beach among the gulls. A female HOUSE SPARROW provided a surprise near the restrooms, along with a roosting COMMON NIGHTHAWK just off the path nearby.

Along the forest trails, a MOURNING WARBLER was present on the Chinquapin Trail, and a SUMMER TANAGER was near post 17 on the Woodland Trail. An unspecified BLUE-WINGED X GOLDEN-WINGED WARBLER hybrid and a CANADA WARBLER were spotted on the Shuster's Trail. About 10 other species of warbler were along Shuster's, and into Tilden Woods, including NORTHERN WATERTHRUSH, REDSTART, BLACK-THROATED GREEN, MAGNOLIA, and BLUE-WINGED WARBLERS.

Also reported from yesterday, the 9<sup>th</sup>, from the Park was a KENTUCKY WARBLER at Sleepy Hollow, and a female SUMMER TANAGER that was seen across from the Marsh Boardwalk parking lot and also along the Northwest Beach entrance driveway.

Outside the Park today, a LESSER BLACK-BACKED GULL was seen at Wheatley, and a LAUGHING GULL was observed at the Hillman shorebird cell.

Good Birding,  
Hike Leaders Pete, Karl, Todd, Justin, Marianne, John and Jeremy
